

The Killers - Some kind of Love

You got the will of a wild
A wild bird
You got the faith of a child
Before the world gets in

You got some kind of love
You got some kind of love
(Some kind)

You got the soul of a tribe
On a long distance haul
You got the grace of a storm
In the desert

You got some kind of love
You got some kind of love

You got some kind
You got some kind
You got some kind
You got some kind of love

You got some kind
You got some kind
You got some kind
You got some kind of love

You got some kind
You got some kind
You got some kind
You got some kind of love

Can't do this alone
When you going home?

There's so much to see
When you're just a child

Can't do this alone
When you going home?
There's so much to see
We know that you're strong

Can't do this alone
